Technical Data Sheet

SCP299RS

Masking Tapes

Description

This is an edge reinforcement tape in the veneer splicing industry.
It has been designed to be used in combination with Fisher+Rueckle Edgemaster veneering reinforcement machines.
The product is standard available in spoolwound rolls in the size 6 mm x 3,000 meters on a 3 inch core.

Applications

Reinforcing of the sides of veneer sheets; see also the picture for applications

Carrier and Adhesive

Impregnated crepe paper backing
High adhesion, rubber based adhesive

Technical Details

PROPERTIES	VALUE
Thickness	0.16 mm
Adhesion to stainless steel	2 N/10 mm
Tensile strength	35 N/10 mm
Elongation	4 %
Temperature resistance	Up to 80 °C

Storage : Clean and dry in a well ventilated area, preferably at a temperature between 15°C and 25°C.

*Disclaimer : The above information is given in good faith, but the user should insure himself that the performance of the product is sufficient for his application. The quoted values are average and should not be taken as maximum or minimum values for specific purposes.
ATS All Tape Supplies cannot be held responsible for product failure unless full testing has been carried out. The client has to decide on the tapes suitability for their own applications.*
