

PET711SA

Polyester Tapes

Description

This masking tape is designed for clean and reliable performance. It has excellent strength and tack. It is engineered to provide a perfect transparency, which is useful in applications where precision is a must (Also available in a yellow colour). The clean removal after operation makes this tape an excellent cost-saving partner in masking applications. This tape can also be provided in die cuts.

Applications

Masking applications

Carrier and Adhesive

Polyester film
Acrylic adhesive

Technical Details

PROPERTIES	VALUE
Total thickness	59 micron
Backing thickness	25 micron
Tensile strength	34 N/cm
Adhesion to steel	2,9 N/cm
Elongation at break	80%
Temperature range	-55°C / +130°C

Storage : Clean and dry in a well ventilated area, preferably at a temperature between 15°C and 25°C.

Disclaimer : The above information is given in good faith, but the user should insure himself that the performance of the product is sufficient for his application.
